<p>OBJECTIVES OF THE YOUTH EXCHANGE</p>	<p>In the anthropological studies it is very clear “after an intercultural encounter nobody will be the same as before”. In the actual situation where the only way of the discussion between cultures and communities seems to be by the international conflict. In a moment where the cultures meet to fight each other we are convinced there is another way to solve the problems: education and working with young people in international encounters. Therefore we want to implement a project with this main objectives:</p> <ul style="list-style-type: none"> - develop the sense of intercultural dimension among youngsters - promote international encounter of youth - foster international mobility - open minds of youth generation
<p>TOPICS</p>	<p>Active citizenship, youth participation, democracy, youth commitment in the local society, intercultural dimension, commonalities and differences between EU and NON-EU Countries.</p>
